

# PROJECT REVIEW REPORT

*This document tracks the findings raised in Verra's review of the project specified below. The VVB must address the findings before the project request can be considered by Verra for approval. The document will be made publicly available on the Verra Registry. Confidential information may be provided as separate attachments.*

<b>Review Type</b>	Verification
<b>Project ID</b>	676
<b>Project Name</b>	33.9 Mw Bundled Wind Power Project in States of Karnataka and Tamil Nadu
<b>Program(s)</b>	VCS
<b>Verification Period</b>	21 December 2016 – 30 March 2018
<b>Project Proponent</b>	Simran Wind Project Private Limited
<b>Methodology</b>	ACM0002, Consolidated baseline methodology for grid connected electricity generation from renewable sources, Version-10.
<b>VVB</b>	TUV SUD South Asia Pvt Ltd
<b>Assessment Criteria</b>	VCS Standard v4.2
<b>Date of First Issue</b>	10 June 2022
<b>Review Conclusion</b>	Approved
<b>Date of Final Issue</b>	04 August 2022

ASSESSMENT FINDINGS			
#	Description	Response	Status
1	<p><b>Project Description (PD) Deviation</b></p> <p>The VVB is requested to ask the project proponent to describe the PD deviations applied in the previous monitoring periods. Furthermore, the VVB is requested to assess if the project proponent adhered to the deviations from the previous monitoring periods.</p> <p><b>Program rule:</b></p> <p>VCS Standard v4.2, Section 3.19; VCS Monitoring Report Template v4.0, Section 3.2.2; VCS Verification Report, v4.0, Section 3.3</p>	<p><b>Round 1:</b></p> <p>VVB Response: PD has described the deviations from the previous monitoring periods. PP has adhered to the deviations from the previous monitoring periods.</p> <p>Verra Review: The project proponent updated Section 3.2.2 of the monitoring report to discuss the project description deviations from the previous monitoring period. Likewise, the VVB updated Section 3.3 of the verification report to reflect these deviations. This finding is now closed.</p>	Closed
2	<p><b>Data and Parameters Available at Validation</b></p> <p>The VVB is requested to clarify if the data and parameters in Sections 4.1 and 4.5 of the verification report and Section 4.1 of the monitoring report are in line with that in the validated project description. The VVB and project proponent must update these sections if any data or parameters are misstated.</p> <p>Alternatively, the VVB is requested to provide an assessment whether a PD deviation has occurred. In this case, the VVB- is requested to ask the PP to indicate such PD deviation in Section 3.2.2 of the MR.</p> <p>It was noted that the parameters of <math>EF_{OM,y}</math> and <math>EF_{BM,y}</math> in this monitoring report are different than the ones provided in the project description.</p> <p><b>Program Rule:</b></p> <p>VCS Standard v4.2, Section 3.15 (1-2) and 3.19; VCS Monitoring Report Template v4.0, Sections 4.1 and 5.1.</p>	<p><b>Round 1:</b></p> <p>VVB Response: The parameters have been corrected in line with the project description.</p> <p>Verra Review: The project proponent updated the parameters <math>EF_{OM,y}</math> and <math>EF_{BM,y}</math> in Section 4.1 of the monitoring report. This finding is now closed.</p>	Closed

<p><b>3 Project Implementation Status</b></p> <p>Section 4.1 of the verification report does not describe the steps taken to assess whether the project has participated or been rejected under any other GHG programs since validation or previous verification; whether the project has received or sought any other form of environmental credit, or has become eligible to do so since validation or previous verification; Whether the GHG emission reductions or removals generated by the project have become included in an emissions trading program or any other mechanism that includes GHG allowance trading; and the sustainable development contribution.</p> <p>The VVB is requested to provide more information about the project implementation status in Section 4.1 of the verification report. Please include all the information that is required under section 4.1 of the VCS verification report template v4.0.</p> <p><b>Program Rule:</b> VCS Standard v4.2, Sections 4.1.14; VCS Verification Report Template v4.0, Section 4.1</p>	<p><b>Round 1:</b></p> <p>WVB Response: Section 4.1 has been updated in the verification report.</p> <p>Verra Review: The VVB updated Section 4.1 of the verification report to assess whether the project has participated or been rejected under any other GHG programs since validation or previous verification, received any environmental credits, or are included in an emission trading mechanism. This finding is now closed.</p>	<p>Closed</p>
<p><b>4 Accuracy of GHG ERR Calculations</b></p> <p>The VVB is requested to describe the steps taken to assess the accuracy of GHG ERR and describe the steps taken to assess them. Please provide all the information that is required under section 4.4 of the VCS verification template v4.0.</p> <p><b>Program Rule:</b> VCS Standard v4.2, Sections 4.1.14 and 3.19; VCS Verification Report Template v4.0, Section 4.4</p>	<p><b>Round 1:</b></p> <p>WVB Response: Section 4,4 has been revised in the verification report.</p> <p>Verra Review: The VVB updated Section 4.4 of the verification report to describe the steps taken to assess the accuracy of GHG ERRs. This finding is now closed.</p>	<p>Closed</p>
<p><b>5 Qualification and limitations of GHG ERRs:</b></p> <p>The VVB is requested to update Section 5 of the verification report to provide the percentage difference between the estimated value of the GHG ERRs. The VVB may also request the project proponent to update Section 3.1 of the monitoring report to reflect the same information.</p>	<p><b>Round 1:</b></p> <p>WVB Response: Section 5 has been updated in the Verification report. Also section 3.1 in the MR has been updated.</p> <p>Verra Review: The project proponent updated Section 3.1 of the monitoring report and the VVB updated Section 5 of the verification report to discuss</p>	<p>Closed</p>

<p><b>Program Rule:</b></p> <p><i>VCS Verification Report Template, v4.0 Section 5.</i></p>	<p>the difference between the actual GHG ERRs generated in this monitoring period and the estimated GHG ERRs. This finding is now closed.</p>
<p><b>6 Addition of other entity</b></p> <p>The VVB is requested to assess the addition of an “other entity” (i.e., EKI Energy Services Limited) as a PD deviation in Section 3.3 of the verification report. Additionally, the VVB is requested to ask the project proponent to report this addition as a PD deviation under Section 3.2.2 of the monitoring report.</p> <p><b>Program rule:</b></p> <p><i>VCS Standard, v4.2, Section 3.19; VCS Monitoring Report Template, v4.0, Section 3.2.2; VCS Verification Report, v4.0, Section 3.3</i></p>	<p style="text-align: right;">Closed</p> <p><b>Round 1:</b></p> <p>VVB Response: Section 3.3 has been revised in the verification report and also the PP has revised the section 3.2.2 of the MR.</p> <p>Verra Review: The project proponent updated Section 3.2.2 of the monitoring report and the VVB updated Section 3.3 of the verification report to describe the addition of an “other entity” as a PD deviation. This finding is now closed.</p>
