23 AUGUST 2024

Narendra Kumar R
Kosher Climate India Pvt. Ltd.
carbon@kosherclimate.com

Dear Narendra Kumar R,

Project ID 4564: Verra grants the exemption request submitted on 07 August 2024.

Verra does not grant the request for an exemption from Section 3.8 of the *VCS Standard, v4.7* to Project ID 4564 - 7.5 MW Waste-to-Energy Power Plant by Goodwatts WTE Jamnagar Private Limited in Gujarat, India.

Rationale:

Section 3.8 of the *VCS Standard, v4.7* states that the project start date of a non-AFOLU project is the date on which the project began generating GHG emission reductions or carbon dioxide removals.

Project ID 4564 - 7.5 MW Waste-to-Energy Power Plant by Goodwatts WTE Jamnagar Private Limited in Gujarat, India is requesting an exemption from the abovementioned VCS requirement to change the start date of the project crediting period because the project has been operating below 50% load factor since commissioning and the project proponent lacked awareness of the monitoring requirements.

Based on the information provided, Verra does not grant the exemption.

Exemptions are granted by Verra on a case-by-case basis and do not form the basis of, or set a precedent for, future exemption request approvals or denials. This letter will be uploaded to the Verra Registry as a public document.

Sincerely,

Neha Rao Negi
Director, Energy and Industry Projects
Verra
