## 1 – Annual Reporting

Please include the following information

(a) a summary of the recent activities, events and actions related to the Project:

In this year, electricity generation continued normally. This annual report covers a period of one year starting from December 2020. Since end of March 2020 (when COVID-19 pandemic emerged globally), few personnel were found as they worked in the Düzova WPP site on a rotating basis. For this reason, compared to previous years, many activities that could be done with the local stakeholders could not be realized. Interviews were usually carried out by phone or e-mail. It was followed whether the local people had any problems via this way. In addition, some routines were conducted for the Düzova WPP employees. For example: Routine trainings (such as HSE etc.) have continued to be given as online training (via Zoom or Teams) on a specified day of the week regularly for all employees at the plant.

Currently, Düzova WPP conduct its 3<sup>rd</sup> Performance Certification in 2<sup>nd</sup> Crediting Period (Third monitoring period: 01/08/2019 to 31/07/2021).

(b) a clear statement on how stakeholders may provide inputs/grievances:

As validated during the site visit, mukhtars (heads of the village) Aşağıkırıklar Village had already taken the contact information of Company Executive of Düzova WPP so that the local stakeholders will be able to reach company executive whenever they have any complaints, suggestions or ideas about the project.

Since mukhtar is the head of the village, he will be the main contact person between the project owner and the local stakeholders. Muhtar will make sure that there is continuous communication between the two parties. Moreover, logbook was delivered to the head of Aşağıkırıklar Village. This logbook will be checked in the next verifications to see whether there have been any complaints from the local stakeholders.

Stakeholder could provide inputs/grievances through the following channel:

	Method Chosen	Justification
Continuous Input Process Book/ Grievance Expression Process Book	The book is handed in to the head of the Aşağıkırıklar Village.  Aşağıkırıklar Köyü, Bergama, İzmir	Signed protocol
