

Gold Standard for the Global Goals Annual Report

March 2018 - Version 1.1

Project Title	Expanding access to LPG in Haiti through microfinance services
Gold Standard ID	GS2564
Date of Annual Report	31/12/2022
Date of Design Certification	25/07/2017
Date of Transition Approval (Transition Projects only)	29/06/2020
Date of Last Verification	01/04/2019

A/R Projects Only - If the project is certified according to the Forest Stewardship Council (FSC), the Certification Status replaces the completion of this template. Please provide the FSC Audit Report and provide a reference to this supporting document in this template. In addition, please provide evidence on how the project demonstrates conformity to Gold Standard Safeguarding Principle 4.2.1 on Water (FSC Certification is not deemed as evidence that this Principle is met). For further guidance refer to the section "FSC Dual Certification" in the Land Use and Forests Activity Requirements.

Please outline how your project meets each of the following requirements, referring to any supporting documentation where necessary.

1 – Annual Reporting

Please include the following information

(a) a summary of the recent activities, events and actions related to the Project:

During 2020, project activities were restricted due to public order conditions and the COVID health crisis, the distribution and adoption of the cookstoves by new users was slowed down. By the end of 2020 only 334 additional improved cookstoves started operating.

(b) a clear statement on how stakeholders may provide inputs/grievances:

There is a **unique phone number** on which clients may provide grievances: **(509) 38 83 27 02**. From this telephone number, all queries are processed and/or forwarded to the relevant department. This number is available on the sale receipt and on communication flyers.

In addition to this, a **dedicated person** from the staff calls all beneficiaries from the database **biannually** from which we have contact details.

There is also a specific after-sales service department which is in charge of the maintenance and repairs of the equipment distributed within the framework of the project and of beneficiaries' assistance.

(c) a list of all inputs/grievances that have been received since last Annual Report together with their respective answers/actions

See Section 2 - Inputs/Grievances Template Report

(d) any incidents or events that may impact the Outcomes/Impacts delivered to date (in terms of loss) or the ongoing Performance of the Project.

Since the second quarter of 2020, concerns about the spread of the coronavirus led to the implementation of preventive measures to mitigate the potential effects of the virus in the region and it was responsibly decided not to expose the team in charge of the annual monitoring surveys to the risk of infection, thus ensuring the health of the staff.

As mentioned above, implementation activities also suffered negatively from the pandemic and the rate of implementation of new cookstoves was reduced from the previous year.

On the other hand, Protests and political violence during the entire year also affected the execution of project activities.

(e) any legal contest or dispute that has arisen

None

(f) any updates to the Key Project Information, Project Design Document, Monitoring & Reporting Plan and any other supporting documentation

None

(g) a brief descriptive summary of all monitoring information collected during the year

During this year, due to political conditions and the health crisis, it was not possible for COVID to access the project area and conduct the annual use and monitoring surveys. To have done so would have meant exposing the users and survey team to danger to their own lives.
