Termination of Agency and Communications arrangements with EKI Limited

Thank you for your email of 20 December. We reiterate that Cropzone did not sign the purported 2023 Communications Agreement.

You will appreciate that it is difficult to disprove the existence of an agreement we did not know existed in the first place, but we would observe that the purported Cropzone signature on the alleged agreement appears to have been copied from the earlier document and pasted into the document.

Nevertheless, in order to accommodate your request so that you recognise the termination of our agency arrangement with EKI, but without prejudice to our continued assertion that Cropzone did not execute the purported agreement and is therefore not bound by it, we have notified EKI Limited that the 2023 Agreement has been terminated. We attach the notification.

Kind regards

CROPZONE AGRO FORESTRY PRIVATE LIMITED
