TEMPLATE GUIDE Stakeholder Consultation Report v.2.0

This is a report template to be used for filling the information pertaining to Local Stakeholder Consultation and Stakeholder Feedback Round conducted in line with the [Stakeholder Consultation and Engagement Requirements](#).

This document contains the following Sections

[Key Project Information](#)

[Grouped Consultation Information](#)

[SECTION A - Information made available to Stakeholders](#)

[SECTION B - Invitations made to Stakeholders](#)

[SECTION C - Report of the Consultation Process](#)

[SECTION D - Continuous input / Grievance mechanism](#)

[SECTION E - Stakeholder Feedback Round](#)

This template has been revised to aid a consistent interpretation and to better support project developers submitting documentation for certification. Please read the accompanying guide to understand how to complete this template accurately. -

[TEMPLATE GUIDE Stakeholder Consultation Report v. 1.2](#)

Please delete blue text boxes upon completion

KEY PROJECT INFORMATION

GS ID of Project	GS 10818
Title of Project	Dissemination of Improved Cookstoves in India by Greenway
Version number of this Report	Version 3.1
Completion date of version	04/03/2023
Time of First Submission Date	04/03/2023
Start Date of the Project	24/08/2020 (PoA Start Date) VPA016: 19/05/2022 VPA017: 16/06/2022 VPA018: 08/07/2022 VPA019: 24/07/2022 VPA020: 16/08/2022 VPA021: 09/09/2022 VPA022: 24/09/2022 VPA023: 18/10/2022 VPA024: 14/11/2022 VPA025: 19/12/2022 VPA026: 15/02/2023
Date of Meeting (s)	18/07/2020 (At PoA) VPA016, VPA017: 18/5/22 VPA018: 4/7/22, 14/7/22, 19/7/22 VPA019: 13/8/22, 16/8/22 VPA020: 30/8/22 VPA021: 23/9/22, 26/9/22 VPA022: 26/9/22, 20/10/22 VPA023: 22/10/22, 17/11/22, 29/11/22 VPA024: 13/12/22 VPA025, VPA026: 31/12/22
Project Cycle:	<input checked="" type="checkbox"/> Regular (for VPA026) <input checked="" type="checkbox"/> Retroactive (for VPA016 to VOA025)

Geographical Boundary of Grouped Consultation	Karnataka, India
Technology covered by the Grouped Consultation	Cookstoves distribution under the ‘Community Services’
Validity Period	31/12/2024 (2 years from the last consultation)
Anticipated number of VPAs	25 VPAs

SECTION A. INFORMATION MADE AVAILABLE TO STAKEHOLDERS

A.1. Preliminary agenda for the meeting

The VPAs will disseminate improved cook stoves (ICS) – to households within India . By providing clean cooking, the project will ensure that households consume less firewood during the process of cooking and as a result there shall be a reduction of carbon dioxide emissions from the combustion process.

Access to energy is still a huge challenge for rural India. Over 800 million Indians use traditional biomass cookstoves for their cooking needs. The widespread use of traditional cookstoves poses serious risks to health and women’s empowerment which are avoidable if they get access to modern fuel-efficient cookstoves. Access to these basic resources and amenities is a prerequisite for healthy living and sanitation in rural India and are interconnected with the health and economic well-being of the people. Greenway Grameen Infra Private Limited is India’s largest manufacturer of biomass cookstoves, which are designed with patented, air regulation technology. Greenway aims to continually develop products that solve some of the pressing needs of mass market households.

A.2. A non-technical summary of the project

The project involves an extensive distribution of Improved Cookstoves (ICS) to low-income consumers in rural Karnataka by Greenway Grameen Infra Pvt Ltd. These ICS will function as modern energy-efficient replacements for traditional mud stoves (chulhas) delivering 65% fuel savings and 70% smoke reduction. They can also run on all kinds of solid biomass fuels, and do not require any changes in the cooking habits/patterns. The ICS can play a vital role in reducing many health impacts that are often a consequence of inhaling the smoke produced while using the traditional cookstoves. Greenway cookstoves help minimize noxious CO, PM and GHG emissions in the kitchens, leading to better health for active beneficiaries such as women and passive beneficiaries such as children, elderly and disabled who are confined to the home and suffer from indoor air pollution. More importantly, they tackle the resource inefficiency arising out of traditional cookstoves, by reducing the amount of wood needed to produce necessary energy levels for a household. The use of Greenway ICS also facilitates income savings due to low fuel consumption. Finally, the use of ICS also helps reduce the global greenhouse-gas emissions and gradual deforestation among forest dwelling communities.

Representative of 'Greenway' communicated in local language to the household about the project activity. In order to make sure that the relevant stakeholders are informed about the project, the proponent sent out door to door, telephonic invites and email invitations to the respective stakeholders. This campaign started 30 days prior to actual meeting. For those who were unable to attend the physical local stakeholder consultation meeting, an online link for joining was arranged.

A.3. Contact details to get further technical detail and project information

Shiji Pavithran, Sales Head, Greenway Grameen Infra Pvt Ltd,
shiji.p@greenwayappliances.com

A.4. Summary of economic, social and environmental impacts of the Project

Affordable technological intervention in the cookstove design, coupled with its distribution among the rural households can help households to reduce the consumption of firewood. This will not only save time for women and men who have to collect fuelwood but will also create an economic opportunity for them. Livelihood and income generation activities such as the distribution of the cookstoves in villages can help people to increase their average annual income and begin to have some positive impacts on the household economics. Similarly, women being the primary benefactors of an ICS, can also become recipients of economic gain. They can either engage in income generating activities or have some spare time to rest. They also gain socially by being able to take part actively in the distribution of the ICS. This helps in a gradual deconstruction of traditional patriarchal structures which often limit women's movement in the public sphere.

The use of ICS directly impacts the overall health of household members, by reducing the incidents of illness arising from smoke inhalation. There is thus a physical gain with respect to improved health, and an economic gain as a result of fewer visits to a doctor. The overall decline in the pollution levels in the village will also impact the social well-being of the community in a positive manner.

The reduction in the amount of fuelwood required and the smoke that is produced while using the ICS directly impacts the issue of global

environment. It not only reduces deforestation, but also reduced the GHG emissions and add to the overall health of the planet.

A.5. Other relevant information to help stakeholders understand the project

The stakeholders were informed about the comparative advantages of owning ICS, with respect to time used in cooking and collecting fuelwood, household labor, dirty or blackening pots, and the level of comfort in using portable cookstoves. The cookstove provides these benefits to the users such that they are able to lead a healthier life on reduced costs. CME has an end user agreement with each of the beneficiary which governs the ownership and transfer of carbon right. The information was provided to stakeholders during the consultation meeting.

SECTION B. INVITATIONS MADE TO STAKEHOLDERS

B.1. Invitation tracking table

Category Code	Stakeholder Type/Organisation (if relevant)	Name of invitee	Male/ Female	Method of invitation	Date of invitation (>30 days before Meeting)
A	SKDRDP, Kadekodi	Manju Naik	Male	Poster and personal invite	15/04/2022
B	SKDRDP, Hodakahalli	Kiran Kumar KP	Male	Poster and personal invite	1/6/22
C	SKDRDP, Shiragur	Vinayaka MA	Male	Poster and personal invite	1/6/22
D	SKDRDP, Raibag	Vinayaka M A	Male	Poster and personal invite	1/6/22
E	SKDRDP, Marigeri	Vinayaka M A	Male	Poster and personal invite	1/6/22
F	SKDRDP, Mole	Vinayaka M A	Male	Poster and personal invite	10/7/22
G	SKDRDP, Athani	Vinayaka M A	Male	Poster and personal invite	10/7/22
H	SKDRDP, Hagarnur	Manju Naik	Male	Poster and personal invite	25/7/22
I	SKDRDP, Mole	Vinayaka M A	Male	Poster and personal invite	20/8/22
J	SKDRDP, Savadi	Vinayaka M A	Male	Poster and personal invite	20/8/22
K	SKDRDP, Khilegaon	Kiran Kumar KP	Male	Poster and personal invite	15/9/22
L	SKDRDP, Teerth	Kiran Kumar KP	Male	Poster and personal invite	15/9/22
M	SKDRDP, Khilegaon	Ganesh	Male	Poster and personal invite	10/10/22
N	SKDRDP, Belagavi	Ganesh	Male	Poster and personal invite	10/10/22

O	SKDRDP, Kalaburagi	Mukesh	Male	Poster and personal invite	12/11/22
P	SKDRDP, Kagawad	Mukesh	Male	Poster and personal invite	12/11/22
Q	SKDRDP, Siddapur	Medappa	Male	Poster and personal invite	25/11/22

B.1.1. Appropriateness of methods

>> In order to make sure that the relevant stakeholders are informed about the project, the proponent sent out poster and personal invites to Seva Pratinidhis (SPs) of the Shri Kshethra Dharmasthala Rural Development Project (SKDRDP, a Karnataka-based charitable trust working for the empowerment of rural people) of various project locations in Karnataka. The SPs, on receiving the invite, contacted and invited the local stakeholders and beneficiaries of the cookstove project, in their respective regions. The invites for the stakeholder meetings were given out at least 30 days before the project implementation.

B.1.2. Gender Sensitivity

>> Greenway Grameen Infra Pvt Ltd does not discriminate based on gender and ensures that an adequate number of women and members of other underrepresented groups have the opportunity to attend the stakeholder consultation meetings. This is especially important considering women form the primary beneficiaries of the project.

B.1.3. Evidence proving invites took place as stated

>> Some of the poster invites handed out by the project proponent, for the stakeholder meetings for the various VPAs, have been attached below. The meeting invites were sent out on various dates. Each VPA DD contains the complete details of the invite sent out at least 30 days before the stakeholder meetings, concerning that VPA project.

Poster invite for the stakeholder meetings conducted in the month of December 2022

B.1.4. Sample content of invites (for each Method above)

The sample content of the invite sent out for the month of July 2022, attached above, has been translated below. Each invite sent out for the VPAs have followed the same content, and only changes have been made concerning the places and locations of the stakeholder meetings pertaining to each VPA, and the same can be accessed through each VPA DD.

Greenway Grameen Infra Pvt. Ltd. invites all local stakeholders for the consultation meeting on distribution of improved cookstoves. It will be held in Kannada, on the following dates and places.

Hodakahalli- 4/7/22, 9 AM
Shiragur- 14/7/22, 12 PM
Raibag- 19/7/22, 11 AM
Marigeri, Shivanur- 19/7/22, 11:30 AM

B.1.5. Description of other Means and methods to provide feedback for those who are not able to join the consultation meeting

>>People who were unable to join the consultation meeting could contact the Greenway field staff by phone, or make a direct contact with them during one of their field visits. They could also register feedback by dropping in a message on the telephone numbers provided.

SECTION C. REPORT OF THE CONSULTATION PROCESS

C.1. Date of Meeting

>> The following meetings have been conducted at the VPA level for VPA016 till VPA026.

Sl. No.	Date of meeting	Location
1	18/05/22	Kadekodi
2	4/7/22	Hodakahalli
3	14/7/22	Shiragur, Harugeri
4	19/7/22	Raibag
5	19/7/22	Marigeri, Shivanur
6	13/8/22	Mole
7	16/8/22	Satti, Athani
8	30/8/22	Hagarnur
9	23/9/22	Shegunshi, Savadi
10	26/9/22	Mole & Savadi
11	20/10/22	Nadi Ingalau, Teerth
12	22/10/22	Khilegaon
13	17/11/22	Siddewadi
14	29/11/22	Gunduvad
15	13/12/22	Renuka Nagar
16	13/12/22	Kalaburagi
17	31/12/22	Siddewadi, Siddapur

C.1.1. Justification of why consultation took place after the project start date (retroactive projects only)

>> Community outreach and engagement events such as product demonstration and training programs and awareness generation events are organised periodically for the projects at VPA level, while the stakeholder consultation before the project implementation was done at PoA level. The community outreach and engagement events are done by the ground operations team members of Greenway, who build a rapport with the end beneficiaries and allow them to express their concerns or any kind of feedback regarding the Greenway cookstoves. The team members duly answer the queries of the attendees during the local stakeholder meetings, and thoroughly demonstrate the proper use of the ICS, while explaining the various linkages of the use of the ICS with the sustainable development benefits and its contribution in reducing greenhouse emissions and lessening the impacts of climate change. Any substantial feedbacks made by the beneficiaries at the VPA level, that might affect the project are also incorporated.

C.1.2. List of participants

Date and Time	18/5/22, 11 AM	Location	Kadekodi
---------------	----------------	----------	----------

Category Code	Name of the participant, job / position in the community	Male / Female	Contact details	Organisation (if relevant)	Signature

C.2. Minutes of physical meeting(s)

>>An executive summary of the physical meetings that have been conducted for the various VPAs is attached below. The minutes of the physical meetings conducted for each of the VPA have been mentioned in the respective VPA DDs.

Executive summary of the physical meetings:

The consultation meetings started with a brief explanation of the project and the objectives of the stakeholder consultation meeting. Participants were encouraged to share their opinion on the importance of the project and its socio-economic and environmental impacts by the representative of the project proponent conducting the meeting. The representative continued with an explanation on traditional fuel type used for cooking in household and its role in global warming and associated impacts on health. The problems associated with depleting forest resources was also explained. The representative further explained the need to make a shift towards clean cooking technologies such as Greenway stoves, and gave a stove demo in the meeting premises. He then gave a brief summary of the carbon credits involved in the sale of each cookstove, and the role of Gold Standard protocols. After the demo, the stakeholders were requested to present their doubts or questions regarding the projects and register their feedback for the projects and its objectives.

The stakeholders were also informed about the continuous input/grievance mechanism using which they can raise any issue in the future. The comments received do not solicit any immediate changes in the design of the project. Hence, PP has made no changes at the VPA level on the basis of comments received.

C.2.1. Minutes of other consultations

>>The other consultations were undertaken at the PoA level and for the previous VPAs from VPA 1 to VPA 15. The minutes of the same can be accessed in the PoA DD and VPA-DDs of VPAs 1 to 15.

C.3. Assessment of comments from all consultations above

Gender of Stakeholder	Stakeholder comment	Was comment taken into account (Yes/ No)?	Explanation/ Justification (Why? How?)
Female	I am not able to afford the Greenway cookstove but I would like to own and use one. Is there some way for me to get the cookstove?	Yes	For people who cannot afford Greenway cookstoves, there is a facility of applying to their regional micro-finance institutions like SKDRDP. Consumers can therefore avail loans from these institutions.
Female	How safe is the Greenway cookstove?	Yes	The cookstoves have been created after many stages of testing, and are completely safe to use.
Female	Can you explain how I am contributing to climate change?	Yes	The concept of climate change is a long-term shift in the average weather conditions of a region, such as its average temperature, and rainfall due to release of certain gases in the atmosphere. We all participate in some form or the other by using cars, or taking

			flights, etc. In villages, one of the main contributors to climate change is the smoke produced while using traditional cookstoves.
Male	How will the product reach all the beneficiaries to whom its use could be of great help?	Yes	Greenway will be conducting many awareness campaigns, along with its partner organisations in various talukas and districts of Karnataka. These will help the product to reach more users who can benefit greatly with the help of Greenway's cookstoves.

C.3.1. Evaluation forms (best practice)

Name	Sunita
Gender – Male/Female:	Female
What is your impression of the meeting?	The meetings explained the economic feasibility of using better cookstoves over a period of years.
What do you like about the project?	I like that it is easier to clean the stove, and it will not require a maintenance for many years.
What do you not like about the project?	Nothing
Signature	

Name	Laxmibayi
Gender – Male/Female:	Female
What is your impression of the meeting?	The meetings explained how to use the Greenway cookstove and its benefits.
What do you like about the project?	I like that the new stove will use much less wood, so I will get some time to rest.
What do you not like about the project?	Nothing
Signature	

Name	Shanthamma
Gender – Male/Female:	Female
What is your impression of the meeting?	The meetings demonstrated improved cookstoves and its benefit in saving trees.
What do you like about the project?	The new stoves will require lesser wood. So, I will save money and time on buying, and collecting wood.
What do you not like about the project?	Nothing
Signature	

C.4. Summary of alterations based on comments

>>The comments made by the stakeholders regarding the project were positive and did not require any alterations to the project design.

SECTION D. CONTINUOUS INPUT / GRIEVANCE MECHANISM

	Method Chosen (include all known details e.g. location of the book, phone, number, identity of mediator)	Justification of Choice (best practice)
Continuous Input / Grievance Expression Process Book (mandatory)	Continuous input and grievance expression can be directly communicated to the proponent's office in-person. Greenway Grameen Infra Pvt. Ltd., 23/A, GIDC Manjusar, Savli Road, Vadodara, Gujarat 37177 and also one register shall be on the local project site/ distribution area	This method was chosen to include the stakeholders who want to share their comments/grievances physical and are not acquainted to other means of communication.
GS Contact (mandatory)	help@goldstandard.org	This method was chosen to include the stakeholders who want to write to Sustaincert.
Telephone access (optional)	6261232087	This method was chosen to include stakeholders who own phones, and would like to give their comments or feedback through a telephone conversation. This is especially useful for local self-help groups who can provide overall feedback of an entire group of women.
Internet/email access (optional)	Personal email id- indu.ga@greenwayappliances.com or, company email id- contact@greenwayappliances.com	This method was chosen to include stakeholders who are literate and can use computers and would like to give their comments or feedback through a telephone conversation.
Nominated Independent Mediator (optional)	N/A	
Other	N/A	

SECTION E. STAKEHOLDER FEEDBACK ROUND

Please check this box if the project is retroactive and has done only 1 consultation with a physical meeting integrated into the SFR.

E.1. Length of the Feedback Round

Stakeholder Feedback Round	Planned	Actual
Start Date	<input type="checkbox"/>	<input type="checkbox"/>
End Date	<input type="checkbox"/>	<input type="checkbox"/>

E.2. Summarise how all stakeholders were/will be invited to provide feedback

>>

E.3. Summarise Feedback received, including if any changes in project design were made

>>

Revision History

Version	Date	Remarks
1.2	5 May 2022	Addition of grouped consultation info, preliminary agenda and section to justify retroactive consultation took place. Minor edits to text.
1.1	14 October 2020	Inclusion of Key Project Information Restructure, new headings and reorder to better match the steps a developer will follow in consultations. Removal of some non-mandatory template tables (Blind Sustainable Development Assessment). Clarification of best practice steps that are non mandatory processes, clarification of mandatory discussion points. Clarification regarding publishing names and that original evaluation forms (optional) and attendance lists (mandatory) should be separate documents. Improved clarity on Stakeholder Feedback round section and procedures for retroactive projects Provision of an accompanying Guide to help the user understand detailed rules and requirements
1.0	14 August 2017	Initial adoption
