

PROJECT REVIEW REPORT

Project ID	0148
Project Name	<i>Hebei Kangbao Wolongtushan 30 MW Wind Farm Project</i>
Program(s)	VCS
Verification Period	<i>1 July 2012 – 29 September 2016</i>
Project Proponent	<i>Hebei Construction Investment Zhangjiakou Wind Energy Co, Ltd.</i>
Methodology	<i>ACM0002 “Consolidated baseline methodology for grid-connected electricity generation from renewable sources” Ver. 6</i>
Sectoral Scope(s)	<i>1: Energy Industries</i>
Validation/Verification Body (VVB)	<i>LGAI Technological Center, S.A. (Applus+ Certification)</i>
Assessment Criteria	<i>VCS Standard, v4.1</i>
Date of First Issue	23 November 2021
Date of Final Issue	15 December 2021

Summary:

An accuracy review of the Hebei Kangbao Wolongtushan 30 MW Wind Farm Project, verification approval request has been conducted by Verra in accordance with Section 4.3 of the Registration and Issuance Process.

The accuracy review has raised 1 assessment finding and no minor findings, detailed below. The VVB, in coordination with the project proponent, is hereby required to provide a response to the assessment findings presented in Section 1. The assessment finding must be addressed to the satisfaction of Verra.

This project review report will be made publicly available. Confidential information may be provided as separate attachments.

1. ASSESSMENT FINDINGS

Finding 1

As per the VCS Standard V4.1, Section 3.8.7, projects registered under other GHG programs are not eligible for VCU issuance beyond the end of the total project crediting period under those programs.

The monitoring report (page 6) states that the VCS crediting period is from 30 September 2006 to 4 April 2028, However, given the maximum length of the crediting period set at 21 years, the VCS crediting period should end on 29 September 2027.

Please adjust the end dates of the crediting period to align it to the VCS Standard v4.1 requirements.

VVB Response:

The total crediting period has been revised in the MR and correspond part in the FVR.

Verra Response:

The total crediting period dates were adjusted to comply with the VCS requirements, and now the monitoring report page 6, states that the crediting period is from 30 September 2006 to 29 September 2027. The finding is closed, and no further action is required.

2. MINOR FINDINGS

Not applicable

3. ASSESSMENT CONCLUSION

On 23 November 2021, Verra conducted a review of the verification approval request for project ID 0148, *Hebei Kangbao Wolongtushan 30 MW Wind Farm Project*, the results of which can be found above. The project review report was sent to LGAI Technological Center S.A. with one assessment finding and no minor findings. On 30 November 2021, Verra received the response to the finding above. The response was sufficient to close the finding.

On 15 December 2021, Verra closed the assessment finding and no further action was required.
