[SECTION B](#) - Invitations made to Stakeholders

[SECTION C](#) - Report of the Consultation Process

[SECTION D](#) - Continuous input / Grievance mechanism

[SECTION E](#) - Stakeholder Feedback Round

## KEY PROJECT INFORMATION

<b>GS ID of Project</b>	GS11655
<b>Title of Project</b>	Implementation of clean energy technology in rural areas of India-1
<b>Version number of the SCR</b>	1.0
<b>Completion date of version</b>	11/05/2022
<b>Time of First Submission Date</b>	11/05/2022
<b>Start Date of the Project</b>	01/06/2021
<b>Date of Meeting (s)</b>	Refer section C.2.
<b>Project Cycle:</b>	<input type="checkbox"/> Regular <input checked="" type="checkbox"/> Retroactive

### SECTION A. INFORMATION MADE AVAILABLE TO STAKEHOLDERS

#### A.1. A non-technical summary of the project

The project activity aims to replace the commonly used inefficient wood fired mud stove technology, with efficient biogas-based cook stove, which is clean and sustainable. The project activity involves bundling household biogas plants located in the state of Punjab in India. The proposed project activity includes 10,656 digesters of capacity 4m<sup>3</sup> which are expected to complete the implementation between 1<sup>st</sup> June 2021 and 30<sup>th</sup> June 2022.

Each household will utilize the dung of its cows to feed the digester to produce biogas for domestic purposes. The generated biogas from the plants to be used for the purpose of cooking and other thermal energy needs in households. The thermal energy generated from the project activity replaces the equal amount of thermal energy which otherwise would have been supplied from the woody biomass (firewood) based stove technology. Therefore, the project activity replaces firewood for equal thermal energy needs and thereby reduces harmful greenhouse gases in the atmosphere. In addition, the hygienic conditions in the rural areas will be improved by an appropriate disposal of waste. Further, residue from the bio digesters is used as organic fertilizer and will improve soil conditions in rural areas. The owners of a digester signed an agreement with Green Mission Welfare society for transferring their carbon rights in the lieu of free operation and maintenance of the plant through the project lifetime; and same was discussed during signing of Commissioning certificate.

**A.2. Contact details to get further technical detail and project information**

ENTITY NAME: GRENEITY INFOCOM SERVICE PRIVATE LIMITED	
Name of Contact Person: MS. SHIVANI GARG	
ROLE: MANAGING DIRECTOR/PROJECT REPRESENTATIVE	
TELEPHONE: +91 9886252062	ADDRESS: 137-B, Pocket-A, Dilshad Garden, Delhi-110095
EMAIL: <a href="mailto:shivani.garg@greneity.com">shivani.garg@greneity.com</a>	

**A.3. Summary of economic, social and environmental impacts of the Project**

Positive impacts of the project activity are summarized below:

Sustainable Development Goals Targeted	SDG Impact (defined in B.6.)	Estimated Annual Average	Units or Products
13 Climate Action (mandatory)	Emission reductions	53,866	tCO <sub>2e</sub>
7 Affordable and Clean Energy	Access to affordable and clean energy services	10,656 biogas plant users are expected to access clean energy	Number of affected users
8 Decent Work and Economic Growth	Unemployment rate, by sex, age and persons with disabilities	10 permanent employments	Number of employments created.
8 Decent Work and Economic Growth	Unemployment rate, by sex, age and persons with disabilities	2 trainings per year.	Number of trainings provided.
3 Good health and well being	Improvement in health and decrease in illness	10,656 biogas plant users will have improved health conditions.	Number of affected users.

Safeguarding Principles Assessment:

Assessment Questions/ Requirements	Justification of Relevance (Yes/potentially/no)	How Project will achieve Requirements through design, management or risk mitigation.	Mitigation Measures added to the Monitoring Plan (if required)

Principle 1. Human Rights			
<p>1. The Project Developer and the Project shall respect internationally proclaimed human rights and shall not be complicit in violence or human rights abuses of any kind as defined in the Universal Declaration of Human Rights.</p> <p>2. The Project shall not discriminate with regards to participation and inclusion.</p>	<p>No</p>	<p>India adopted 'The protection of human rights Act' 1993 and the project is bound to follow the rules and regulation of host country. In addition, India has ratified 'International Convention on the Elimination of All Forms of Racial Discrimination :1969' 'International Covenant on Civil and Political Rights :1976', 'International Covenant on Economic, Social and Cultural Rights :1976' 'Convention on the Elimination of All Forms of Discrimination against Women :1981'. Therefore, the project developer and the project do respect nationally and internationally proclaimed human rights and shall not be</p>	<p>Not Applicable</p>

		complicit in violence or human rights abuses of any kind.	
<b>Principle 2. Gender Equality</b>			
<ol style="list-style-type: none"> <li>1. The Project shall not directly or indirectly lead to/contribute to adverse impacts on gender equality and/or the situation of women</li> <li>2. Projects shall apply the principles of non-discrimination, equal treatment, and equal pay for equal work</li> <li>3. The Project shall refer to the country's national gender strategy or equivalent national commitment to aid in assessing gender risks</li> <li>4. (Where required) Summary of opinions and recommendations of an Expert Stakeholder(s)</li> </ol>	No	<ol style="list-style-type: none"> <li>1. The project is implemented at households. It does not involve any women workforce which may lead to sexual harassment.</li> <li>2. Yes. The project involves construction of biogas digesters at households. Trained labours are used for the same. Local people are engaged for the same. No discrimination either in gender or any other form is followed to engage local people.</li> <li>3. The project does not have any scope to apply gender strategy as such. Although the project positively contributes towards the national</li> </ol>	Not Applicable.

		mission for empowerment of women through improvement of health and attaining vision for empowerment of women under national policy for women 2016	
<b>Principle 3. Community Health, Safety and Working Conditions</b>			
1. The Project shall avoid community exposure to increased health risks and shall not adversely affect the health of the workers and the community	No	The project leads to safe working condition and improvement in health as it will replace firewood as fuel with biogas which is clean and safe.	Not applicable
<b>Principle 4.1 Sites of Cultural and Historical Heritage</b>			
Does the Project Area include sites, structures, or objects with historical, cultural, artistic, traditional or religious values or intangible forms of culture?	No	The project area covers households which does not have any structures, or objects with historical, cultural, artistic, traditional, or religious values or intangible forms of culture. Hence, not applicable.	Not applicable
>>			
<b>Principle 4.2 Forced Eviction and Displacement</b>			

Does the Project require or cause the physical or economic relocation of peoples (temporary or permanent, full, or partial)?	No	The project activity takes place within individual households. Therefore, no relocation of people takes place.	Not applicable
>>			
<b>Principle 4.3 Land Tenure and Other Rights</b>			
a. Does the Project require any change, or have any uncertainties related to land tenure arrangements and/or access rights, usage rights or land ownership?	No	The project area covers households which does not have any structures, or objects with historical, cultural, artistic, traditional, or religious values or intangible forms of culture. Hence, not applicable	Not applicable
b. For Projects involving land use tenure, are there any uncertainties with regards to land tenure, access rights, usage rights or land ownership?			
>>			
<b>Principle 4.4 - Indigenous people</b>			
Are indigenous peoples present in or within the area of influence of the Project and/or is the Project located on land/territory claimed by indigenous peoples?	No	No. The project involves household biogas digesters. Therefore, it does not involve any influence towards indigenous people	Not applicable
>>			
<b>Principle 5. Corruption</b>			
1. The Project shall not involve, be	No	The project benefits	Not applicable

<p>complicit in or inadvertently contribute to or reinforce corruption or corrupt Projects</p>		<p>households with clean fuel (biogas). There is no corruption provision in the project activity.</p>	
<p><b>Principle 6.1 Labour Rights</b></p>			
<p>1. The Project Developer shall ensure that all employments are following national labour occupational health and safety laws and with the principles and standards embodied in the ILO fundamental conventions</p> <p>2. Workers shall be able to establish and join labour organisations</p> <p>3. Working agreements with all individual workers shall be documented and implemented and include:</p> <ul style="list-style-type: none"> <li>a) Working hours (must not exceed 48 hours per week on a regular basis), AND</li> <li>b) Duties and tasks, AND</li> <li>c) Remuneration (must include provision for payment of overtime), AND</li> </ul>	<p>No</p>	<p>The project does not require labour force for implementation of the project. Trained technicians are involved in construction and operation and maintenance of plants. Therefore, no forced labour is involved in the project. No child labour is involved.</p>	<p>Not applicable</p>

<p>d) Modalities on health insurance, AND</p> <p>e) Modalities on termination of the contract with provision for voluntary resignation by employee, AND</p> <p>f) Provision for annual leave of not less than 10 days per year, not including sick and casual leave.</p> <p>4. No child labour is allowed (Exceptions for children working on their families' property requires an <a href="#">Expert Stakeholder</a> opinion)</p> <p>5. The Project Developer shall ensure the use of appropriate equipment, training of workers, documentation and reporting of accidents and incidents, and emergency preparedness and response measures</p>			
<b>Principle 6.2 Negative Economic Consequences</b>			
<p>1. Does the project cause negative</p>	<p>No</p>	<p>The project has lifetime of 15</p>	<p>Not Applicable</p>

economic consequences during and after project implementation?		years and expected to run beyond the project certification period. With carbon finance it is further strengthened to operate 100% project systems with continuous maintenance.	
>>			
<b>Principle 7.1 Emissions</b>			
Will the Project increase greenhouse gas emissions over the Baseline Scenario?	No	No. The project will replace firewood use with biogas. Hence, it will reduce greenhouse gas emissions over the Baseline Scenario.	Not Applicable
>>			
<b>Principle 7.2 Energy Supply</b>			
Will the Project use energy from a local grid or power supply (i.e., not connected to a national or regional grid) or fuel resource (such as wood, biomass) that provides for other local users?	No	No. The project uses inhouse cattle dung only.	Not Applicable
>>			
<b>Principle 8.1 Impact on Natural Water Patterns/Flows</b>			
Will the Project affect the natural or pre-existing pattern of watercourses, groundwater and/or the watershed(s) such as high seasonal flow	No	No. Water in huge quantity is not required for the project which can impact the ground water	Not Applicable

variability, flooding potential, lack of aquatic connectivity or water scarcity?		level or any seasonal flow. Water is needed to mix with cattle dung while feeding in digester.	
>>			
<b>Principle 8.2 Erosion and/or Water Body Instability</b>			
a. Could the Project directly or indirectly cause additional erosion and/or water body instability or disrupt the natural pattern of erosion? b. Is the Project’s area of influence susceptible to excessive erosion and/or water body instability?	No	No. Water in huge quantity is not required for the project which can impact the ground water level or any seasonal flow. Water is needed to mix with cattle dung while feeding in digester	Not Applicable
>>			
<b>Principle 9.1 Landscape Modification and Soil</b>			
Does the Project involve the use of land and soil for production of crops or other products?	No	No. Since the project takes place in individual households, no net degradation in existing landscape function and services takes place.	Not Applicable
>>			
<b>Principle 9.2 Vulnerability to Natural Disaster</b>			
Will the Project be susceptible to or lead to increased vulnerability to wind, earthquakes, subsidence, landslides, erosion, flooding, drought or other	No	No. The project happens at individual households. There is no activity which can affect	Not Applicable

extreme climatic conditions?		adversely the natural system to cause earthquake, landslides, erosion, flooding, draught, or other extreme climatic conditions.	
>>			
<b>Principle 9.3 Genetic Resources</b>			
Could the Project be negatively impacted by or involve genetically modified organisms or GMOs (e.g., contamination, collection and/or harvesting, commercial development, or take place in facilities or farms that include GMOs in their processes and production)?	No	Not applicable. The project does not involve any crop production or cultivation.	Not Applicable
>>			
<b>Principle 9.4 Release of pollutants</b>			
Could the Project potentially result in the release of pollutants to the environment?	No	No. The project does not release any pollutants to the environment.	Not Applicable
>>			
<b>Principle 9.5 Hazardous and Non-hazardous Waste</b>			
Will the Project involve the manufacture, trade, release, and/ or use of hazardous and non-hazardous chemicals and/or materials?	No	Not applicable. The project does not involve any production process.	Not Applicable
>>			

<b>Principle 9.6 Pesticides &amp; Fertilisers</b>			
Will the Project involve the application of pesticides and/or fertilisers?	No	Not applicable. The project does not involve any crop production or cultivation.	Not Applicable
>>			
<b>Principle 9.7 Harvesting of Forests</b>			
Will the Project involve the harvesting of forests?	No	Not applicable. The project happens at individual households.	
>>			
<b>Principle 9.8 Food</b>			
Does the Project modify the quantity or nutritional quality of food available such as through crop regime alteration or export or economic incentives?	No	Not applicable. The project activity is biogas digester installation happens at individual households.	Not Applicable
>>			
<b>Principle 9.9 Animal husbandry</b>			
Will the Project involve animal husbandry?	No	Not applicable. The project activity is biogas digester installation happens at individual households.	Not Applicable
>>			
<b>Principle 9.10 High Conservation Value Areas and Critical Habitats</b>			
Does the Project physically affect or alter largely intact or High Conservation Value (HCV) ecosystems, critical habitats, landscapes, key biodiversity areas or sites identified?	No	Not applicable. The project activity is biogas digester installation happens at individual households.	Not Applicable
>H>			

Principle 9.11 Endangered Species			
<p>a. Are there any endangered species identified as potentially being present within the Project boundary (including those that may route through the area)?</p> <p>b. Does the Project potentially impact other areas where endangered species may be present through transboundary affects?</p>	No	Not applicable. The project activity is biogas digester installation happens at individual households.	Not Applicable
>>			

The project activity positively benefits towards

- Access to clean air
- Access to good health and living conditions
- Clean Energy
- Reducing CO2 emissions in the environment.

Traditional cook stoves are also the major source of environmental problems like air pollution, deforestation, and climate change and biodiversity loss. The nexus of firewood consumption with the indoor air pollution and greenhouse gas (GHG) emission is well established. Specifically, the firewood sourced from forest does not entirely come from the forest area that is renewable. Therefore, the firewood consumed is fossil in origin that results in irreversible emissions of GHGs. By use of biogas the firewood consumption will be reduced which in a way improve the indoor air pollution and therefore health of family members.

Air quality and household pollution is one of the biggest health risks in India which is largely attributed to the use of solid biomass, mainly firewood, for cooking and heating. Health safety concerns from open fire traditional cook stoves are additional risks faced by poor households contributing to a substantial percentage of subsequent health

problems. With the use of biogas-based cook stove, carbon monoxide levels will be significantly reduced in the households. In comparison to traditional cook stove, biogas system provides clean energy solution as biogas is cleaner compared to traditional cook stoves which has low efficiency.

In addition, the project is expected to reduce on an average 53,866 tCO<sub>2</sub> emissions from atmosphere annually. The project does not release any pollutants to the environment. Hence, there is no negative impacts to the environment.

Therefore, the project has socio, economic and environmental benefits.

#### **A.4. Other relevant information to help stakeholders understand the project**

During the stakeholder consultation meeting along with the non-technical summary, Project design documents, Emission reduction calculations, technical details of the technology used, SDGs, positive impacts of the project will be discussed with the stakeholders in the local language to help them understand more about the project activity.

## SECTION B. INVITATIONS MADE TO STAKEHOLDERS

### B.1. Invitation tracking table

Category Code	Stakeholder Type/Organization (if relevant)	Name of invitee	Male/ Female	Method of invitation	Date of invitation (>30 days before Meeting)
A	Local Population	-	N/A	Newspaper advertisement, Verbal door to door invitation, Invitation displayed in the gram panchayat & public places and banner.	05-May-2022
B	Biogas Digester Beneficiaries	-	N/A	Newspaper advertisement, Verbal door to door invitation, Invitation displayed in the gram panchayat & public places and banner	05-May-2022
C	Sarpanch, Faridkot	-	-	Personal Invitation	05-May-2022
D	Sarpanch, Barnala	-	-	Personal Invitation	05-May-2022
E	Sarpanch, Bathinda	-	-	Personal Invitation	05-May-2022

F	Gold Standard representative	help@goldstandards.org	N/A	Email (Acknowledgement Received)	05-May-2022
G	Member Secretary (DNA)	Dr. Subrata Bose	MALE	Email	05-May-2022
H	National Carbon Management Association	info@ncmaindia.org	N/A	Email	05-May-2022

### B.1.1. Appropriateness of methods

The project activity is a rural community-based biogas project. Majority of the stakeholders are the biogas plant owners. Door to door invitations were sent by the local technicians involved in the project activity. Further, newspaper advertisements (in spokesman newspaper) in the local language were given 30 days prior to the meeting. In addition to this, advertisement in the local language was displayed in the Panchayat offices. Personal invitations were given to the local authorities before 30 days. Further, other stakeholders viz. Gold Standard representative and their supporter NGOs, DNA were invited through emails. All efforts have been made to ensure maximum participation for the stakeholder meeting.

During Stakeholder Feedback Round, a project Key information note for the project activity will be provided to all stakeholders along with a feedback questionnaire.

### B.1.2. Gender Sensitivity

While inviting the stakeholders for feedback the PP has not discriminated on the basis of gender.

### B.1.3. Evidence proving invites took place as stated

 Subject: Invitation to participate in the Local Stakeholder ConsultationMeetings

Dear Sir/Madam,

With reference to the above subject, Greneity along with its partner agencies are promoting household biogas digesters in rural areas of Punjab where households otherwise primarily depend on firewood for cooking purposes.

We are developing three different project with GS IDs as below:

- GS11655 – ‘Implementation of clean energy technology in rural areas of India-1’
- GS11656 – ‘Implementation of clean energy technology in rural areas of India-2’

The bio-digesters covered in above projects are mainly 4m3. The use of household bio-digesters will replace firewood consumption in traditional cooking pattern. In addition to firewood consumption, the use of biogas will reduce the exposure of the family members, specifically women and children to the indoor air pollution and therefore result in improving health and livelihood of users. In this regard, we are pleased to invite you for local stakeholder consultation meetings to discuss and appraise the project. Details of the venues are provided below:

05<sup>th</sup> June, 2022, 10am-11am  
 Gram Panchayat  
 Village Pipli, district Faridkot  
 Punjab, India

05<sup>th</sup> June, 2022, 10am-11am  
 Gram Panchayat  
 Village Badhani kala, district Moga  
 Punjab, India

05<sup>th</sup> June, 2022, 10am-11am  
 Gram Panchayat  
 Village Deepgarh, District Barnala  
 Punjab, India

05<sup>th</sup> June, 2022, 10am-11am  
 Gram Panchayat  
 Village Dekh, District Bathinda  
 Punjab, India

05<sup>th</sup> June, 2022, 10am-11am  
 Gram Panchayat  
 Village Buraj delwa, District Mansa  
 Punjab, India

05<sup>th</sup> June, 2022, 10am-11am  
 Gram Panchayat  
 Village Dal Singh wala, District Mukhtsir  
 Punjab, India

We look forward for your participation and fruitful discussion during the meeting.

B.1.4. Sample content of invites (for each Method above)

Refer Section B.1.3

B.1.5. Description of other Means and methods to provide feedback for those who are not able to join the consultation meeting

Stakeholders are free to voice their concerns via the Grievance Register. By maintaining feedback book at the local Panchayat office. It is ensured that stakeholders that don't have access to electronic media for expressing concerns / grievances are also able to share their concerns / feedback.

## SECTION C. REPORT OF THE CONSULTATION PROCESS

### **C.1. Date of Meeting**

#### C.1.1. List of participants

The attendance list of the participants is provided in Annex 1.

#### C.1.2. Pictures from physical meeting(s) (best practice)

Stakeholder meeting is planned for 5<sup>th</sup> June 2022.

This section will be completed after the meeting.

### **C.2. Minutes of physical meeting(s)**

Stakeholder meeting is planned for 5<sup>th</sup> June 2022.

This section will be completed after the meeting.

#### C.2.1. Minutes of other consultations

N/A

### **C.3. Assessment of comments from all consultations above**

Stakeholder meeting is planned for 5<sup>th</sup> June 2022.

This section will be completed after the meeting.

#### C.3.1. Evaluation forms (best practice)

Stakeholder meeting is planned for 5<sup>th</sup> June 2022.

This section will be completed after the meeting.

### **C.4. Summary of alterations based on comments**

N/A

## SECTION D. CONTINUOUS INPUT / GRIEVANCE MECHANISM

Please use the table below to report on the methods agreed with stakeholders

	Method Chosen (include all known details e.g. location of book, phone, number, identity of mediator)	Justification of Choice (best practice)
Continuous Input / Grievance Expression Process Book (mandatory)	The logbook has been maintained at the panchayat office.	The panchayat office is the most accessible place for all the villagers
GS Contact (mandatory)	help@goldstandard.org	
Telephone access (optional)	+91 9886252062	As the project is spread across a huge area hence telephone access has also been provisioned.
Internet/email access (optional)	<a href="mailto:shivani.garg@greeneity.com">shivani.garg@greeneity.com</a>	The stakeholders with internet access has an option of contacting Greeneity through the email id provided.
Nominated Independent Mediator (optional)	N/A	N/A
Other		

## SECTION E. STAKEHOLDER FEEDBACK ROUND

Please check this box if the project is retroactive and has done only 1 consultation with a physical meeting integrated into the SFR.

### E.1. Length of the Feedback Round

Stakeholder Feedback Round		Planned	Actual
Start Date	10 <sup>th</sup> May 2022	<input checked="" type="checkbox"/>	<input type="checkbox"/>
End Date	10 <sup>th</sup> July 2022	<input checked="" type="checkbox"/>	<input type="checkbox"/>

## Mails for Feedback Round:

**Fwd: Stakeholder Feedback Round- GS 11655 & GS 11656**

**Subject:** Stakeholder Feedback Round- GS 11655 & GS 11656

Dear Stakeholder,

This email is regarding the initiation of "Stakeholder Feedback Round" for the Gold Standard for Global Goals project titled

1. "Implementation of clean energy technology in rural areas of India-1" with project ID GS11655
2. "Implementation of clean energy technology in rural areas of India-2"- with project ID GS 11656

The project intends to avail the households with clean cooking solutions; thereby, displacing traditional chulhas with biogas based plants. The replacement of the traditional chulhas with biogas system will not only reduce firewood consumption but also reduce exposure of the family members, especially women, to the indoor air pollution. The project is aimed to be applied for registration under Gold Standard for global goals Voluntary Emission Reduction for the abatement of Carbon dioxide.

Draft Project Document for all the above mentioned projects are attached for your reference.

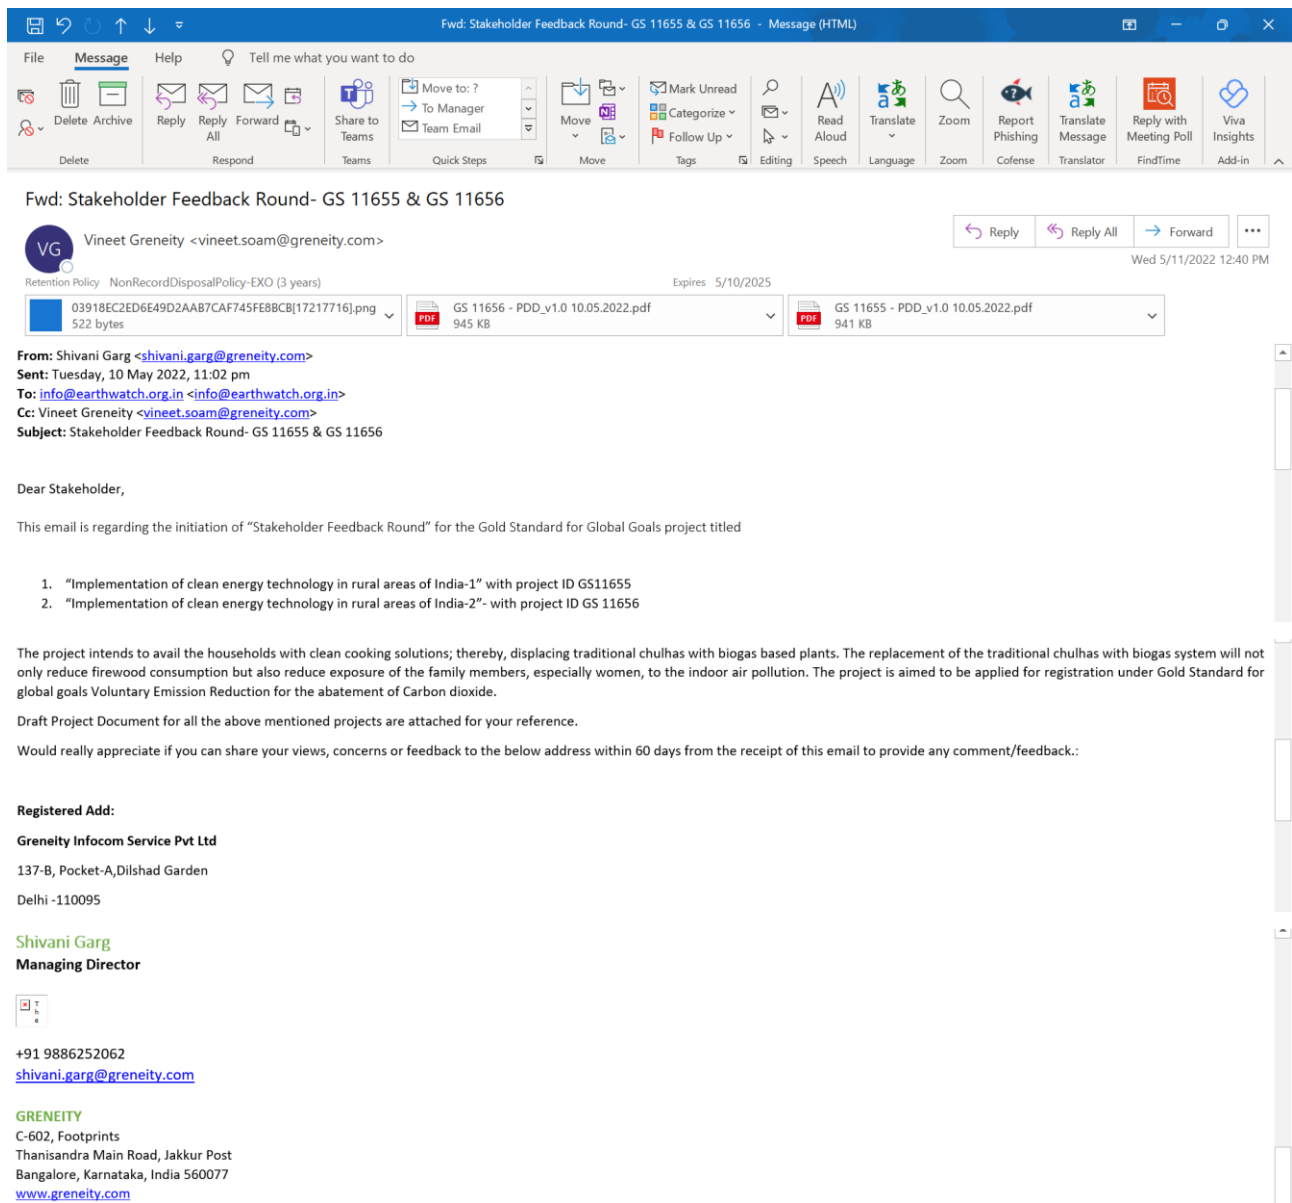

We would really appreciate if you can share your views, concerns or feedback to the below address within 60 days from the receipt of this email to provide any comment/feedback.:

**E.2. Summarise how all stakeholders were/will be invited to provide feedback**

Stakeholder feedback round has been conducted virtually by inviting the stakeholders through email with stakeholders being sent the project documentation to submit feedback.

**E.3. Summarise Feedback received, including if any changes in project design were made**

The stakeholder feedback round is ongoing. The details will be provided once the same is completed.

## Annex 1

### Attendance Sheet

Stakeholder meeting is planned for 5<sup>th</sup> June 2022.

This section will be completed after the meeting.

### Revision History

Version	Date	Remarks
1.1	14 October 2020	<p>Inclusion of Key Project Information Restructure, new headings, and reorder to better match the steps a developer will follow in consultations.</p> <p>Removal of some non-mandatory template tables (Blind Sustainable Development Assessment).
