## Summary:

An accuracy review of the Solar and Wind Power Project by NTPC Limited verification approval request has been conducted by Verra in accordance with Section 4.3 of the *Registration and Issuance Process*.

The accuracy review has raised one assessment finding and no minor findings, detailed below. The VVB, in coordination with the project proponent, is hereby required to provide a response to the assessment finding presented in Section 1. The assessment finding must be addressed to the satisfaction of Verra.

This project review report will be made publicly available. Confidential information may be provided as separate attachments.

## 1. ASSESSMENT FINDINGS

### Finding 1

Section 3.4.3 of the VCS Standard, v4.1 states that the project proponent shall use the *VCS Monitoring Report Template*... and adhere to all instructional text within the template.

Section 3.1 of the *VCS Monitoring Report Template*, v4.0 instructs the project proponent to describe the operation of the project activity(s) during this monitoring period, including any information on events that may impact the GHG emission reductions or removals and monitoring.

Section 3.1 of the monitoring report does not include information on the operation of the project activities during this monitoring period.

The project proponent is requested to update section 3.1 of the monitoring report to include a description of the operation of the project activities during the current monitoring period. The VVB is requested to assess the updates and to update the verification report, as needed.

#### VVB Response:

VVB confirms that PP has updated section 3.1 of the monitoring report in line with the VCS Monitoring Report Template, v4.0. The supporting documents for the operation of project activity have been provided by PP & found satisfactory.

#### PP Response: -

The operation of the project activity(s) during the current monitoring period has been updated in section 3.1 of the monitoring report in line with VCS Monitoring Report Template, v4.0.

#### Verra Response:

Section 3.1 of the monitoring report has been updated to address the operation of the project during the current monitoring period. This finding is closed, and no further action is required.

## 2. MINOR FINDINGS

No minor findings were raised.

## 3. ASSESSMENT CONCLUSION

On 28 December 2021, Verra sent the project review report to Earthood Services Private Limited with one assessment finding and no minor findings.

On 21 April 2022, Verra closed all findings and approved the verification approval request.
