Project 1748: Review Notification

Dear John Willis, Chuop Paris, and Christie Pollet-Young:

Verra is opening a new review of project 1748, Southern Cardamom REDD+ Project, following Section 6 of the *VCS Registration and Issuance Process, v4.3*, Section 3.11 of the *SD VISTa Program Guide, v1.0*, and Section 4.7.3 of the *CCB Program Rules, v3.1*.

On 30 May 2023, Verra received stakeholder comments about the Southern Cardamom REDD+ Project. Verra deems these comments to warrant further investigation and, as a result, is opening a new review of the project under the VCS, SD VISTa and CCBS Programs.

This letter serves as a formal notification of the review and will be uploaded to the Verra Registry as a public document.

Next Steps

Verra will conduct the review and while the review is ongoing, any further credit or label issuance is suspended.

Once the review is completed, Verra will issue a review report to SCS Global Services, the validation/verification body that conducted the first validation. SCS Global Services must provide written responses to the findings raised by Verra in the review report.

Sincerely,

Farhan Ahmed
Chief Program Management Officer
Verra
