BY

WILL SOLUTIONS INC., 116 DESJARDINS, BELOEIL, PROVINCE OF QUEBEC, CANADA, J3G 5Z5, email: mclermont@solutionswill.com as further described below.

THIS DEED WITNESSES as follows:

1. **INTERPRETATION**

1.1 In this Deed:

"Accountholder" means the holder of an account in the Verra Registry;

"AFOLU" means agriculture, forestry and other land use;

"Approved GHG Program" means a GHG Program that has been approved by the Verra Board, through a gap analysis, as a VCS Program approved GHG Program;

"GHG" means greenhouse gas;

"GHG Program" means a formal or organized program, scheme or arrangement for the recognition of activities leading to Reductions or Removals, or the crediting or issuance of instruments representing, or acknowledging, Reductions or Removals;

"Issuance Representor" is the party to this Deed, as set out at the start of this Deed, being one or more of: (i) the Project Proponent; (ii) any entity to whom the Project Proponent has assigned all of its rights to the Project's Reductions or Removals for the entire Project Crediting Period; or (iii) any entity which can demonstrate it has sole rights in respect of the entire volume of a Project's Reductions or Removals where such Reductions or Removals have been verified and the corresponding Verification Report has been issued on or before 30 September 2009;

"Monitoring Report" means the document that records data to allow the assessment of the Reductions or Removals generated by the Project during a given time period in accordance with the monitoring plan set out in the Project Description, covering the Reductions or Removals generated from 01-01-2022 to 31-12-2022;

"Project" means ENERGY EFFICIENCY AND SOLID WASTE DIVERSION ACTIVITIES WITHIN THE QUEBEC SUSTAINABLE COMMUNITY;

"Project Crediting Period" means the time period for which Reductions or Removals generated by the Project are eligible for issuance as VCUs, the rules with respect to the length of such time period and the renewal of the project crediting period being set out in the *VCS Standard*;

"Project Description" means the document that describes the Project's Reduction or Removal activities and that uses either the *VCS Project Description Template* or the project description template specified by the relevant Approved GHG Program;

"Project Documents" means the documents required to register the Project and/or issue VCUs, as set out in VCS document *Registration and Issuance Process*;

"Project Ownership" means the legal right to control and operate the project activities. Distinct from proof of right;

"Project Proponent" means the individual or organization that has overall control and responsibility for the Project, or an individual or organization that together with others, each of which is also a Project Proponent, has overall control or responsibility for the Project. The entity(s) that can demonstrate Project Ownership in respect of the Project. For the avoidance of doubt where an individual executes this Representation in their capacity as an authorized office holder of the company who is the Project Proponent, this Representation is made by the company, not the authorized office holder;

"Reduction or Removal" means a reduction or removal of one (1) metric tonne of CO₂ equivalent caused by the activities of the Project during the Project Crediting Period. Refer to the VCS Program Definitions for the full definitions for "GHG Emissions Reduction (Reduction)" or "Carbon Dioxide Removal (Removal)";

"Validation/Verification Body" or "VVB" means an organization approved by Verra to act as a validation/verification body in respect of providing validation and/or verification services in accordance with the VCS Program Rules;

"VCS Program" means the GHG Program operated by Verra which establishes the rules and requirements that operationalize the VCS to enable the validation of GHG projects and programs, and the verification of GHG emission reductions and removals;

"VCS Program Rules" means the rules and requirements set out in the *VCS Program Guide*, *VCS Standard*, *Registration and Issuance Process*, and the other VCS Program documents, as such rules and requirements may be updated from time to time;

"Verification Period" means the time period 01-01-2022 to 31-12-2022 specified in the Verification Report during which the Reductions or Removals were generated and have been verified by the VVB;

Recordation of a VCU in the account of the Accountholder at the Verra Registry is prima facie evidence of that Accountholder's entitlement to that VCU.

"Verra Registry" means the registry used by Verra that ensures all required Project and program documents have been submitted, maintains accounts of VCUs, issues and ensures the seamless flow of VCUs between registry accounts, and maintains custody and records of VCU legal ownership;

- 1.2 Documents referred to in this Deed but not defined shall be the VCS Program documents to which the relevant definition relates, as published and updated by Verra from time to time.

- 2.2.1 All factual information that I provide in relation to this Deed is to the best of my knowledge following due inquiry true, accurate and complete in all material respects and I have not made or provided, and will not make or provide, false, fraudulent or misleading statements or information in relation to this Deed;
- 2.2.2 The Monitoring Report and any other Project Documents for which I am responsible, and am supplying to the Verra Registry and any other person in relation to the operation of the Project under the VCS Program Rules, are true and accurate in all material respects and do not contain any false, fraudulent or misleading statements or information;
- 2.2.3 I hold full and exclusive legal and equitable title and rights to all and any Reductions or Removals generated by the Project for which I am eligible to request VCU issuance during the Verification Period free and clear of all encumbrances; and
- 2.2.4 I have not submitted, sought, requested or received any recognition of the Reductions or Removals generated by the Project during the Verification Period and for which I am requesting VCU issuance from any GHG Program other than under the VCS Program or as any other form of GHG- or renewable energy-related environmental credit (including without limitation as renewable energy certificates), or I have provided evidence to the Verra Registry in accordance with the VCS Program Rules that any such credits have not been used and have been cancelled under the relevant environmental credit program.

- 2.3 I hereby acknowledge and agree that:

- 2.3.1 The following persons may rely on and enforce the terms of this Deed:

2.3.3 I have read, understood and will abide by the VCS Program Rules; and

2.3.4 Verra has an absolute right to amend any of the VCS Program Rules at any time and shall not bear any liability for loss or damage or liability of any kind sustained by the Issuance Representor or any other party involved in the Project in any way under the VCS Program as a consequence of such amendment.

2.4 I hereby acknowledge that Verra:

2.4.1 Reserves the right to take action against an Issuance Representor where Verra deems, acting reasonably, that there has been a material erroneous issuance of VCUs in respect of the Project, as a result of the fraudulent conduct, negligence, intentional act, recklessness, misrepresentation or mistake of the Issuance Representor; and

2.4.2 Will determine such action having regard to the VCS Program Rules. Such action may include:

- (a) Directing the Verra Registry to cancel erroneously issued VCUs;

- (b) 12 months after the date upon which any second Verification Report with respect to the erroneously issued VCU is accepted on the Verra Registry.¹

¹ The intention is that a VCU will be issued following acceptance of the Verification Report for the Project. For some types of AFOLU projects in particular, the verification cycle may be longer than 6 years. In this regard, if the second Verification Report shows a VCU has been erroneously issued Verra will have an additional 12
