Verification Objective

The objective of this verification is to assess compliance to the below reported verification criteria. The verification results are reported in the document entitled "PURO FACILITY & OUTPUT AUDIT REPORT" dated 26.06.2020 relative to Termowood As.

Verification Scope

- **Facility** for CO2 Removal method: Wooden building elements.
- **Output** for the period of 1.4.2019 - 30.04.2020 for CO2 Removal method: Wooden building elements.
- Verified areas: CO2 Removal in Production output of Wooden building elements for the period of 1.4.2019 - 30.04.2020

Verification Level of Assurance

The verification was conducted by DNV GL with a reasonable level of assurance. An audit is based on verification of a sample of available information. Consequently there is an element of uncertainty reflected in the audit findings. An absence of nonconformities does not mean that they do not exist in audited and/or other areas. Prior to awarding or renewing certification this report is also subject to an independent DNV GL internal review which may affect the report content and conclusions.

Verification Criteria

The requirements applicable to the organization is Puro CO2 Removal Marketplace General Rules (Version 1.4 approved 9 May 2020)
entitled "PURO CO2 REMOVAL MARKETPLACE GENERAL RULES"
