Project Location	Located in Acre, Brazil along the southern bank of the Valparaiso River
Date of Verification	19 March 2019
Distinctions	Gold Level for Climate, Community and Biodiversity
Verification Opinion	This verification statement confirms that Environmental Services, Inc. (Climate, Community & Biodiversity Alliance-Approved VVB) has evaluated <i>The Russas Project Monitoring Report v3.0</i> , prepared by CarbonCo LLC (Project Proponent), dated 05 March 2019, according to the criteria outlined by the Climate, Community and Biodiversity Project Design Standards Second Edition, and that this verification statement is consistent with ISO 14064-3:2006 and ISO 14065:2013. <i>The Russas</i>

ENVIRONMENTAL SERVICES, INC.

Project is located in Acre, Brazil along the southern bank of the Valparaíso River. The dates of the period evaluated for this verification are 01 January 2017 – 31 December 2017.

The cover page of the verified Monitoring Report (05 March 2019) summarizes the climate, community and biodiversity benefits the project has delivered.

Environmental Services, Inc. confirms all verification activities including objectives, scope and criteria, level of assurance, validated Project Description implementation, and project monitoring report adherence to the CCB Project Design Standards (Second Edition) as documented in our report entitled *The Russas Project VCS+CCB Verification Report* dated 05 March 2019, are complete. ESI concludes without any qualifications or limiting conditions that *The Russas Project Monitoring Report v3.0*, dated 05 March 2019 meets the requirements of the Climate, Community and Biodiversity Project Design Standards (Second Edition) and produces net climate community, and biodiversity benefits for the period 01 January 2017 – 31 December 2017. In addition, ESI asserts that the project complies with the verification criteria for projects set out in the Second Edition of the CCB Standards to achieve Gold Level Distinction for Climate, Community, and Biodiversity.
